- › End User Training and 1 month of hyper care support

# SAP S/4HANA Finance Transformation with ifb

Time to Move is now

SAP® Recognized Expertise  
SAP S/4HANA\*

Majority of existing customers still need to start their SAP S/4HANA finance transformation.

Early scepticism in the market concerning business benefits and functionality unfounded by now. Solution is mature and has proven track record.

New functionality is only available for S/4. Bridge gap to competitors rather than falling further behind.

Hesitation to make large investments can be mitigated by gradual migration path (HANA, S4H) that relieves the pressure on costs. Invest in future proof technology instead of using money on an old system.

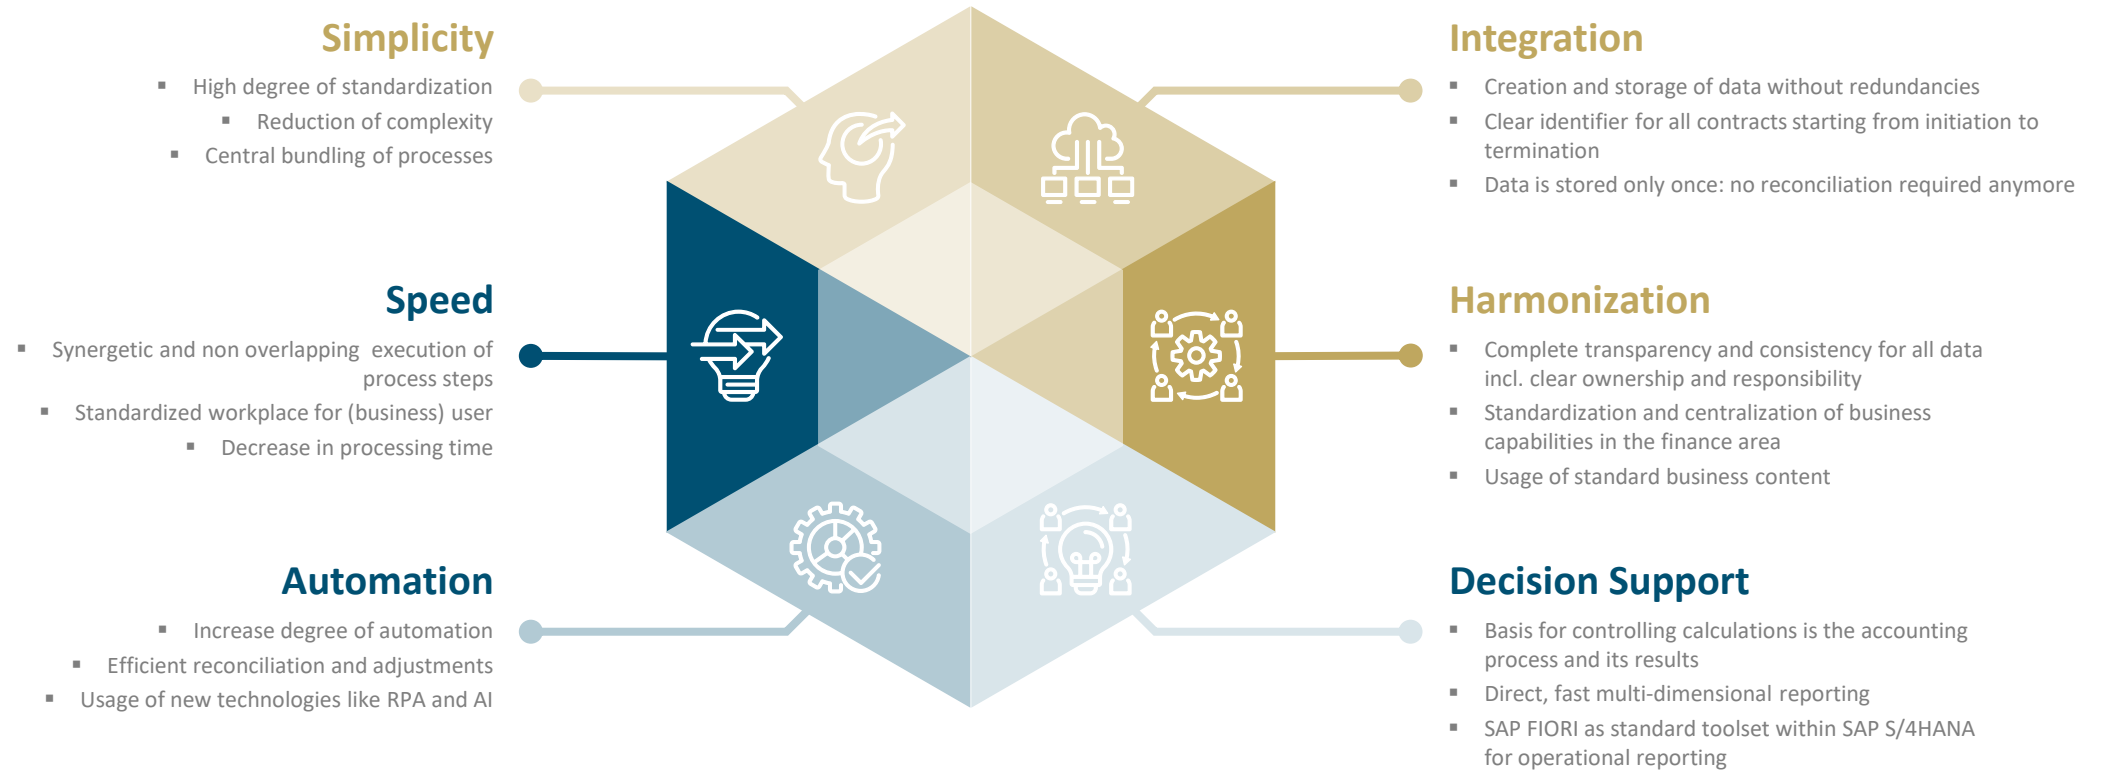

Data volumes will continue to grow significantly. Make your application ready and flexible to cope with future requirements.

# SAP S/4HANA Finance Transformation with ifb

Leverage S/4 Finance Capabilities to accelerate your Transformation Journey

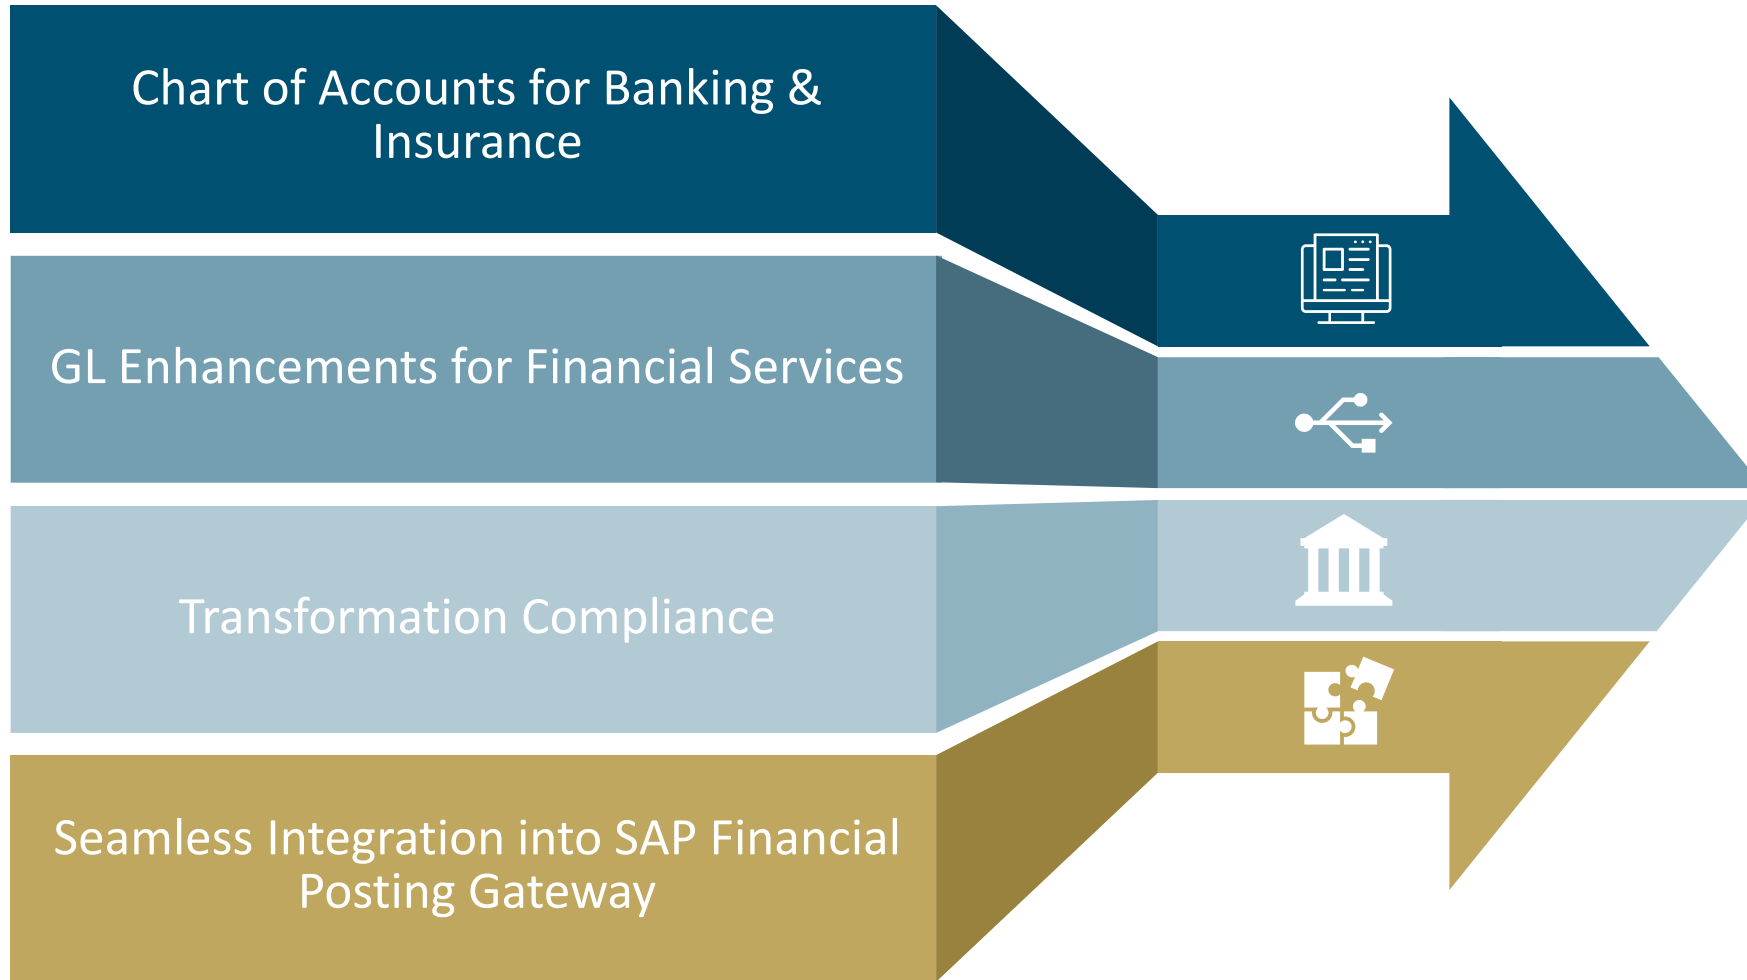

Increase efficiency within the finance process framework, reduce cost in maintenance and operation and at the same time re-focus personnel on value adding activities
